|             |                          |
|-------------|--------------------------|
| Compound:   | Selank                   |
| Lot:        | VP-4692745-P             |
| Appearance: | White Lyophilized Powder |

|             |                                                                |
|-------------|----------------------------------------------------------------|
| CAS         | 129954 34 3                                                    |
| Formula:    | C <sub>33</sub> H <sub>57</sub> N <sub>11</sub> O <sub>9</sub> |
| Mol Weight: | ~751.9 g/mol                                                   |

Pubchem CID 11765600

Qualitative and Quantitative chemical analysis by Ultra High Performance Liquid Chromatography with Mass Spectrometry

|                | Speci cation | Result | Scan to Validate:                                                                    |
|----------------|--------------|--------|--------------------------------------------------------------------------------------|
| Compound Test: | Selank       | Selank |  |
| Quantity:      | 10mg         | 9.8mg  |                                                                                      |

UPLC

MS

Aleksey Yevtodiynko PhD  
 Research and Formulation Chemist

This purity analysis was conducted using UPLC/MS under standard laboratory conditions, following validated analytical protocols to ensure accurate and reliable results. This analysis is intended for informational and research applications.
